The Cover: Upon his induction into the Massachusetts State Hockey Coaches' Association Hall of Fame, Mac Murphy (right) was presented a plaque by Dick Marr '53. Marr, currently hockey coach at Milton Academy, played goal for Mr. Murphy at GDA.

MAC MURPHY JOINS HOCKEY HALL OF FAME

A. MacDonald Murphy, former Chairman of the GDA English Department, Director of Athletics, and long-time Head Hockey Coach at the Academy, was recently honored by the Massachusetts State Hockey Coaches' Association by election to that group's Hall of Fame.

Mac was inducted into the "Hall" at a dinner held March 12, 1979, at the Garden Club in the Boston Garden. Inducted along with Mac were "Red" Kelley, former coach at Rindge Tech; John Krol, former coach at Watertown High School; and Tom Moon, former Boston Olympics goalie and Lexington High School coach.

The following citation was read at the occasion:

"'Mac' Murphy graduated from Harvard in 1929 and began a teaching career at Governor Dummer which extended from 1931-1974. For his first twelve years he was assistant hockey coach and from 1943-1962 he was the head coach. His teams were noted for their spirit,

their excellent positional play, and their love of the game. His strongest squads came in the 1944-1947 era, before the beginning of the Independent School League.

"'Mac' was one of the originators of that league in 1950 and has earned a well-deserved reputation as one of the founding fathers of private school hockey. The esteem in which he has been held by his counterparts is clearly shown by a recent development. Early in this month, the Eberhart Hockey Division (of which Governor Dummer is a member) conducted its first post-season tournament, and at stake for the winner was the A. MacDonald Murphy Bowl.

"To everyone who has known 'Mac,' he is the perfect gentleman, the 'Renaissance Man' — and he has had an extremely positive influence on the hundreds of skaters who have had the good fortune to play for him as a coach and know him as a person."

A view of the old hockey pond during Mac's tenure as coach.

The Inaugural Address of Dr. David W. Ellis '54, 13th President of Lafayette College.

DAVID ELLIS '54 BECOMES LAFAYETTE PRESIDENT

"If we pause for a moment and try to detect what is on the horizon for higher education in the last quarter of the twentieth century, the resulting list of issues is awe-producing. We will need to deal with, for example, the prospect of reduced enrollments and possibly realignment of national priorities vis-à-vis higher education. There are also the increasing fiscal crunch; the development of new teaching methods; the advancing average age of faculties and the increased concern for faculty renewal; the growing complexity and cost of scientific and engineering equipment; and many more."

So said Dr. David W. Ellis, GDA '54, in his inaugural address as 13th president of Lafayette College on October 20, 1978.

"With the impact of higher education on the lives of individual students as our central concern, in the long run we should expect to have promoted maturity in three facets of the student's adult life: earning a living, functioning in society, and living with oneself."

After graduating from Governor Dummer, Dave Ellis received his B.A. degree from Haverford College, majoring in chemistry and graduating with honors in 1958. He held a duPont teaching fellowship in chemistry while a graduate student at M.I.T., from which he received his Ph.D. in 1962. He spent the next 16 years in a variety of administrative capacities at the University of New Hampshire, where he was serving as Vice President for Academic Affairs when tapped by Lafayette for the presidency.

Dr. Ellis follows both his father and grandfather in a family tradition of college presidents — he may be the only college president in the country with such a family background. His father, Dr. Calvert N. Ellis, succeeded his father, Dr. Charles Calvert Ellis, in the presidency of Juniata College in 1943. Asked if this influenced his choice of careers, Dr. Ellis answered, "Yes, — negatively. It's very hard to grow up in the home of a college president without seeing firsthand some of the negative aspects of higher education."

However, it apparently was obvious to someone at Governor Dummer that he was a potential college president, for the 1954 *Milestone* observed that he was "perpetually apprehensive about his sky-high average." In fact, the influence of an academic environment was evident when he arrived here, because it was clear that he had already been in an atmosphere where people were interested in ideas. Mac Murphy remembers Dave as a student who was excited by ideas, and who made stimulating conversation about them.

"David Ellis will be 43 in February. He is of average height and build, and has a pleasant, relaxed air about him. He smiles often and easily. He is not overpowering or intimidating. Indeed, he often prefers to listen rather than talk, and to ask questions rather than answer them. Before he answers a question, he pauses to order his thoughts and then speaks with to-the-point directness. Often his answers are itemized with the elements in order of priority, revealing a scientist's mind at work. He frequently prefaces his remarks with a humorous throw-away line."

This is the way Dave Ellis was described in the fall issue of the *Lafayette Alumni Quarterly* in an article written by Alumni Publications Editor Robert A. Clark. What follows is excerpted from that article.

Dr. Ellis always managed to teach chemistry courses at the University of New Hampshire, even when he occupied top-level administrative posts there. He wants to continue to teach at Lafayette, "but that can wait until after I do a lot more listening and learning. I certainly will find a way to teach. I am not sure whether it will be a full semester course or not, but I will find a way to be involved with students in the classroom or laboratory."

For now, he is becoming acclimated to the demanding schedule of the chief executive of Lafayette College, a job he finds "both challenging and exhilarating." What comprises a typical day for the president? "It's hard to say what's typical," he comments, "since every day seems to hold its own unique challenges and surprises. But it might go something like this. We are normally awakened by our daughter, Kathryn, who leaves the house before 7 a.m. to board the bus to Shawnee Intermediate School. I sometimes watch the news on TV, then walk to the office and arrive at 7:45 a.m. or so. I cherish the first hour. It is an uninterrupted time to get my thoughts together or to review any problems for the day. Occasionally, that early morning time is used for a meeting on an issue that has some urgency.

"The morning and afternoon are normally taken up with three kinds of activity, the first two of which predominate. The first activity is meetings that have been set up, usually by others, on issues of concern to them that affect the College and in which they would like me involved in some way. The second major category would be committees of one kind or another, where I would be expected to be there because of a particular topic on the agenda. The third category is an important one to me — taking the time to meet faculty, administrators, and students, individually, and preferably in their offices. I haven't had as much time to do that as I would like, but that which I have been able to

The new "First Family" of Lafayette College. Dr. Ellis poses with his wife, Marion, and daughters Audrey, 8 (standing), Kathryn, 14; and Lorna, 11.

do I have found very helpful. It's a way to acquire an understanding of people's views of the College — the opportunities, the frustrations, and what they would like to see the president doing or not doing. It gives me a chance to learn firsthand what the perceived problems are, as well as some ideas about how to deal with them."

A native of Pennsylvania who has spent the past 20 years in New England, David Ellis admits he misses "being close to the rugged New England coastline." But he and Marion and their three daughters — Kathryn, 14, Lorna, 11, and Audrey, 8 — have admired the beauty of the Lehigh Valley's hills and rivers on their few excursions over back roads.

One of Dr. Ellis's "prime escapes" from the pressures of his responsibilities is now several hundred miles away — a cabin on the coast of Maine. He will still go there with his family — "to relax, read, hike, split some wood." When he is unable to get away, President Ellis relaxes "by doing something different, not by just doing nothing," he says. "I very seldom watch TV or just sit and listen to music. I will occasionally read for the fun of it — historical novels for the most part. I recently started James Michener's *Chesapeake*. I enjoy playing a game of cards with my children and walking the dog (a boxer named Tia). But I relax by working with my hands — fixing up old furniture, weeding the garden, splitting wood." He is concerned about the limited amount of exercise he has been getting. "Maybe cross-country skiing will be the answer," he says, "if there is enough snow."

A third generation college president, David Ellis '54 receives fatherly advice from Dr. Calvert Ellis, President Emeritus of Juniata College. A generation earlier the scene may have been similar as outgoing President of Juniata Dr. Charles Ellis handed down the presidency to his son, David's father.

STUDENTS TAKE TO THE AIR

4

On Wednesday evenings at 7:00 p.m., John Robertson arrives at the Frost Building, descends the stairs into the basement and enters a door across from the school archives leading to what used to be music practice rooms.

John enters and turns on the "exciter" to warm up the crystal for his 8:00 show and sets the crystal at the correct frequency. While the system warms up, John listens to music and makes selections from the records he has brought with him. It is just before air time. The transmitter is turned on and the leveling amp controlling the volume and level of distortion is adjusted along with the internal speakers. At 8:00 the show starts,

"Good evening, this is WQLI in Byfield, 88.7 F.M."

John Robertson is one of several students involved with the school radio station which, since 1973, has been licensed and broadcasting for the GDA community and other audiences within a ten-mile radius of the school.

"As a ten watt monaural station we run basically on weeknights, though hopefully we'll have more scheduling this spring," John comments.

The Radio Club currently operates with a membership of about 20 students. The officers include Jim Ronan '79, Program Manager; Jeff Segil '80, Station Manager; Steve Moheban '80 and Jeff Bailey '80, Treas-

urers; and Mark Winer '79, Secretary. Faculty Advisor Roger Smith '68 acts as a liaison between the club and the administration, but otherwise WQLI is fairly autonomous.

One reason the station can function on its own is the training required of the staff.

"QLI doesn't need an engineer," continues Robertson. "The D.J.'s are qualified to run the equipment because they have taken the Element 2 Exam." This involves testing for a third class radio/telephone license permitting one to operate a non-commercial educational F.M. station.

Students currently qualified to broadcast include John Robertson '80, Matt Tomlinson '80, Dave Critics '81, Janine Bruce '80, Steve Moheban '80, John Perlowski '79, Russ Savrann '80, and Jeff Segil '80. Because the station does not own a record library, D.J.'s provide their own albums, resulting in the presentation of a variety of musical tastes. Soft rock, punk rock, big band sounds, and other music all find air time, providing diversity in both the programming and the listening audience. "Ultimate trivia," a selection of questions asked of the listening audience, is also a regular feature.

In addition to providing entertainment, the experience also gives students a "feel" for radio, which for most teenagers is a fairly important part of their lives. The future of WQLI is in good hands, limited only by the budget, the students' personal supply of records, and their imagination.

FAST RAISES MONEY AND AWARENESS

Oftentimes people don't know how lucky they really are, but they do think about their bad luck when it seems to be turning against them. Mr. Tindall, the Religion teacher, took a small group of students from GDA, and invited about five students from Exeter Academy, to spend a weekend retreat at a house in Ipswich. The weekend seemed to turn against us in every way, from no heat to no water; in spite of this, all of us really enjoyed ourselves.

The two important results which came out of this weekend were a realization that we actually did not have it that bad (even without water and heat), which eventually caused us to think about people who are less fortunate than ourselves.

The Governor Dummer students present decided to hold a fast at school for one lunch, primarily to raise the student awareness of other people's needs, but also to raise money which would be sent to OXFAM, a world-wide organization which gives food to needy families. Thanks to the cooperation of Mr. Sumner in the kitchen, the GDA business manager Mr. Champoux, and Mr. Ragle, we were able to sign 292 people to fast for lunch on Thursday, February 22.

As a result of the students' keeping their promises, only 90 people in the entire school ate, and the sum of \$167 will be sent to OXFAM during this March vacation. Because of this success, the "GDA Fast Committee" is now in the process of planning a second fast for this spring. Thanks — to everyone involved.

Scott Sylvia '80

ANNUAL FUND UPDATE

Gifts and Pledges

	March 20, 1978		March 20, 1979	
	Donors	Amount	Donors	Amount
ALUMNI	584	\$60,528	409	\$51,749
PARENTS	201	20,299	200	30,366
FRIENDS	46	6,635	41	8,151
	831	\$87,462	650	\$90,266

The Annual Fund is ahead of last year in total dollars, thanks largely to an outstanding effort by past and present parents, but many alumni have not made their gifts as yet. Wait no longer — your support is needed now! A successful Annual Fund is vital to the fiscal health of the Academy.

The goal is \$126,000, and the campaign ends on June 30, 1979.

There are currently 26 alumni children at GDA, courtesy of 21 different alumni. Front row (left to right): Kathy and Joanne Leary (John '48), Jack and Dave Lothrop (Scott '53), Sloan Tyler (Mike '57), Jenny Graf (Frank '56), Jeff and David Hatfield (Charlie '54), Linda Miller (Doug '46), Will Friend (Bill '55), Steve Judson (Bill '49).

Back row: Chip Ireland (Blake '47), John Leary (John '48), Chris Gemmer (Phil '48), Peter Laventis (George '50), Matt Palais (Don '45), Chris Kangis (Plato '47), Jared Squires (stepson of Steve Spacil '48), Peter Brandli (John '53), Bill Bartlett (Dick '37), David Powers (Dave '52), Mark Miller (Doug '46), Peter Morse (Bob '51), Jonathan Welch (Josiah '47).

Absent from picture: John Goodhart (Dave '41), Mike Weldon (James '48).

The current Wang 2200A computer will be tied into the new system and made portable for classroom use.

NEW COMPUTER EXPANDS TEACHING/ADMINISTRATION CAPABILITIES

Governor Dummer is about to become the recipient of a new Wang 2200T Computing System through the generosity of Courtney Wang '74. The gift was recently announced by Director of Studies Richard N. Leavitt who worked with Courtney to develop the best possible system for the school's needs.

"The new system is designed for compatibility and inter-communication with our current Wang 2200A model," said Leavitt.

The new 2200T system will initially involve two new, larger work stations with video screen output and mini-diskette "personal" program library storage.

"Each station will be able to access a high-speed line printer for output and a large disk for mass data and program storage," Dick continued. "The system will also be accompanied by appropriate, modern support furniture."

One obvious advantage to this new system will be the increased access that students will enjoy because of the expanded number of terminals. Another advantage will be the more sophisticated capabilities which will enrich both the current required curriculum and the elective portion.

The system, which has a value of approximately \$43,000, has also been received with the intention of applying it to support routine work in the Development Office and the Office of the Director of Studies.

With delivery anxiously anticipated in late April, the hearty number of students involved with the current system as an extracurricular interest will no doubt find great use for this generous gift.

FACULTY BASKETBALL BENEFITS MILESTONES CAMPAGIN

A large and appreciative audience turned out to help support "Milestones . . . 1977-1980," the Academy's current capital campaign, and watch a star-studded basketball game. Twenty-five men and women faculty members staged a fast and furious exhibition in Alumni Gymnasium, with the proceeds earmarked for scholarship support through the Milestones Campaign.

Mike "The Spike" Mulligan organized the affair, which featured such notable players as Tom "Too Tall" Tindall, Ed "Too Small" Rybicki, "Bullet Bob" Anderson, Mike "Moon" Moonves, and Tom "Red Terror" Mechem. It was noted that the student referees particularly enjoyed blowing the whistle on the faculty for a change. Two former head coaches were coaxed out of retirement for one night only, as "Williams' Wimps," under Dave Williams, defeated "Witherspoon's World-beaters," under John Witherspoon, 64-60.

Director of Admissions Mike Moonves points an accusing thumb at opponent Tom Tindall in the Faculty Basketball Game played on March 2 for the benefit of the Milestones Campaign.

"Spike" Mulligan celebrates a mid-court basket during the Milestones Campaign Faculty Basketball game. Teammate Beth Cawley P '77, '79 lends support.

ALLIES NEWS

The February 24th Dinner-Theatre Party was a smashing success! Not only did the Governor Dummer Allies realize a profit of \$1,325, but everyone enjoyed an evening of sociability, a delicious roast beef dinner (thanks to Gene Sumner and his staff), and a lively and talented performance of "Kiss Me Kate" by the Academy Players. The entire cast, under the able direction of Ms. Debbie Craig, deserves many accolades.

The Allies spring fund-raiser will be a Giant Flea Market and Sale on Saturday, May 12th (indoors in case of rain). We need everyone's help in donating items for the sale, helping at the tables, and most important, attending. Please consider donating flea market items, antiques, jewelry, sporting goods, plants, baked goods, books, records, notable magazines, costume clothing, toys, and services (no large appliances).

There will be many athletic events on campus that day, so come and spend the day. Combine the sale, beginning at 10 a.m., with our barbecue luncheon (catered by parent Bill Evans, owner of Riverview Restaurant in Salisbury), followed by an afternoon of sports.

We will also be renting table space for \$10 per table to outside dealers. If you are interested in renting table space or in helping out in any way, please contact either: Mrs. Carol Kurtz, Hampton Falls Road, Exeter, N.H. 03833 (Telephone 603-772-4670); Mrs. Sally Tindall, GDA (Telephone 465-3426); or Mrs. Beth Cawley, 260 Middle Street, West Newbury, MA 01985 (Telephone 465-3639). See you there!

A GREAT GRADUATION GIFT

With Commencement fast approaching, the Governor Dummer Allies wish to remind all parents and other friends of an excellent way to remember a GDA graduate.

For a gift of \$8.00 or more, the Allies will provide a new book for the Library with a special bookplate indicating the name of the person in whose honor the book is given, as well as the name of the donor. The graduate so honored will receive a card and a facsimile of the bookplate informing him or her of this unique gift made in his or her name.

It works equally as well for persons other than graduates, on such occasions as a birthday or an anniversary. All gifts to the Allies' Library Fund are tax deductible, and provide vital assistance to the Allies' program of scholarship aid and other support for GDA students.

Please contact Mrs. Doris Lothrop in care of The Allies, Governor Dummer Academy, Byfield, Mass. 01922. Checks should be made payable to Governor Dummer Academy.

CALENDAR OF COMING EVENTS

April 6

Friday, 7:30 p.m. Thompson Arts Center
David Abusamra, GDA Foreign Language teacher, will present a slide show on France. Mr. and Mrs. Abusamra and their young daughter, Ilse, spent five weeks touring France last summer. Highlights of the trip were visits to Carcassonne, a medieval walled town, and to the Niaux Caves, site of the third most famous prehistoric cave paintings.

April 20

Friday, 7:30 p.m. Thompson Arts Center
The University of Massachusetts Debating Team will present an exhibition debate. Four participants will debate the topic, "Resolved: That abortions should be declared illegal except when the life of the mother is threatened."

May 4

Friday, 7:30 p.m. Thompson Arts Center
Student Recital by students who are currently taking either vocal or instrumental lessons at the Academy.

May 11

Friday, 7:30 p.m. Thompson Arts Center
The Greenpeace Foundation will present a film on the plight of whales and the intervention by Greenpeace, followed by a question and answer session.

May 12

Saturday, all day. REUNION DAY
All alumni invited. Registration from 9:00 a.m., Phillips Building. Athletic events start at 10:00 a.m. Picnic lunch, Phillips Lawn, 12:00; Cocktails in Mansion House, 5:30; Dinner in Phillips, 6:30.

May 12

Saturday, 10:00 a.m. to 3:00 p.m. Alumni Gymnasium
Allies Flea Market and Sale, barbecue luncheon.

May 18

Friday, 7:30 p.m.
The Music Department will present a concert featuring the Glee Club and Chamber Ensemble.

May 25, 26

Friday and Saturday, 8:00 p.m. Thompson Arts Center
Drama Club production of the comedy, "Barefoot in the Park," by Neil Simon. Directed by senior Kathy Leary.

May 30

Wednesday, 12:00 to 6:00 p.m. Phillips Building
GDA Bloodmobile . . . all types and typists welcome.

June 1

Friday, 7:30 p.m.
Recital by senior Steve Judson, singing the Schubert Song Cycle.

June 7

Thursday afternoon. Alumni vs. Varsity Lacrosse Team, Alumni vs. Varsity Baseball Team, followed by High Tea for seniors and their families. Morse Flag presentation at 6:00 p.m., followed by Senior Awards assembly.

June 8

Friday, 10:00 a.m. Mansion House Lawn
216th Commencement Exercises.

WINTER ATHLETICS

8

It was the most heartbreaking loss one could imagine. The Governor Dummer men's basketball team had led most of the way in the championship game of the New England Class C tournament, and was ahead by one point with 5 seconds remaining. Thayer brought the ball the length of the court and put up an off-balance, excuse-me shot — that went in at the buzzer.

Thus the Governors had to be content with their second Division Championship in two years this time around, and with the selection of junior guard Tony Thomas as co-MVP of the tournament. The week before, the Governors had lost the Independent School League Championship in another incredible thriller — also by one point, and also to Thayer. Last year GDA defeated Thayer in both of these events, so it is perhaps appropriate that the league's two best teams should split the honors over a period of two seasons.

Certainly it was another great year for Coach Tom Tindall's outstanding team, as they ran through the league with a 13-1 record in the regular season. Tony Thomas and Derek Spears again earned All-League honors, as did sophomore Terrence Talley. The MVP award will be announced when the student body returns from vacation in April.

* * *

The women's basketball team began the season with only three returning lettermen and, with the first six games on the road, started off with only a win over Middlesex to show for their efforts. With the next four games at home, the team was determined to put the losses behind them and go out and win.

The streak began with a crushing win over St. Mark's, built to a solid victory over St. Paul's, and ended with a decisive win over an aggressive Worcester squad. The team was on fire with everyone playing well and, more importantly, as a team. Moments of brilliance were seen on the court as Sue Perry sank incredible hook shots, Randy Tye and Anita von Henneberg snagged rebound after rebound, and the alert guards set up ingenious plays. The outstanding play of Randy Tye, the team's captain, and sophomore Sue Perry, resulted in their selection as co-MVP's of this year's team.

* * *

The volleyball team, in only its second year of existence, finished with a fine 8-4 record. Captain Abbey Woodbury, the team's only senior and number one setter, earned the MVP award. Liz Evans was the number two setter, and Sally Lee's excellent serve pulled out both the B.B. & N. and Pingree games. Vinca Ingram was the team's best spiker, while Carol Sterge and Ginny Bushell were good spikers who were also adept at recovering opponent's spikes. Benay Lazo and Sally Degan came off the bench to provide consistent help. The team was greatly aided by Iranian students Kash Nourizadeh and Amir Forsat, whose superior knowledge of the game made them valuable assistant coaches to Coach Betsy Clark.

* * *

Winter track at Governor Dummer is a team without a home. Even with all their meets on the road, the team enjoyed a successful season. Senior Andy Linn, who was named MVP, ran the 50-yard dash in 5.65 seconds, just .05 off the school record; in one meet, he won the 50 while competing against college sophomores. Team members participated in a five-mile road race in Newburyport in January, with Matt Palais placing 16th out of 150 runners and winning the first-place trophy for runners age 17 and under. The Governors finished third in the Interscholastics at Moses Brown, with the boys taking 16 ribbons. In a girls' meet, our four competitors won five events among them, and in another, Neda Kalhori won the mile in 5:56.9, the fastest ever by a girl on the Andover track.

* * *

The hockey team was disappointed with its 7-8-2 record, but the players endured the rigors of the league's only remaining outdoor rink, including many hours of lost practice, and provided some exciting moments for their loyal and frozen fans. The best game of the year was an amazing 6-3 defeat of eventual league champion Middlesex, and on their ice, no less. The second successive shutout over Brooks on their ice in two years was also a great game, ending in a 0-0 tie.

Co-captains Dave Smith and Steve Perry provided strong leadership and were co-recipients of the Coach's Cup at the end of the season. All-League goaltender Dave Lothrop, who played in 51 out of a possible 52 games during his GDA career, facing 1,541 shots and stopping 1,326 of them (all GDA records), was named MVP.

* * *

Heb Evans' wrestling team was perhaps the surprise of the league, rising from a mediocre record last year to become one of the best teams in the league when everyone was healthy, which wasn't often. Big victories included wins over Class A teams Andover and Mount Hermon, and a notable tri-meet sweep versus B.B. & N. and Portsmouth Priory which resulted in an unprecedented double shutout: not one GDA wrestler lost a single match.

In the Christmas Tournament the squad tied with Milton, the eventual league champions, but at the end of the season only six of the original 12 starters remained in one piece. So outstanding were these six "survivors" that they all shared the MVP award: Mike Morrison (115), Andy Morrison (127), Chris Stafford (145), Tom Bigelow (152), Dave Callen (167), and Gary Bostwick (177) — and five of these MVP's will return next year!

In the Independent School League tourney, three Governors placed second and three came in third, for fifth place out of 17 teams. And in the New England Tournament, sophomore Andy Morrison became GDA's first New England champion in six years when he captured the 127 pound title.

Finalists and Semi-Finalists in the Graves-Kelsey Wrestling Tournament this year include (back row, left to right) Gary Bostwick '81 (177 lbs.), 3rd place; Dave Callen '80 (167 lbs.), 3rd place; Chris Stafford '80 (145 lbs.), 2nd place; (front row) Andy Morrison '81 (127 lbs.), 2nd place; Co-Captain Tom Bigelow '79 (152 lbs.), 3rd place; and Mike Morrison '81 (115 lbs.), 2nd place.

CLASS NOTES

12

'28

Bill Bottger writes that he still enjoys running his own business but enjoys sailing Chesapeake Bay even more. He apologizes for missing his 50th Reunion last year, but hopes to stop by the school this summer.

'30

Mark Rogers retired as manager of a steel foundry after 42 years with General Electric in Schenectady, New York.

'34

Richard Sprague is still living on Philadelphia's Main Line, but suffers from occasional nostalgia for Duxbury and the ocean.

'36

George Bovenizer continues to work for Bethlehem Steel in West Orange, New Jersey.

'37

Still living in Hot Springs, Arkansas, **Verges Van Wickle** writes that he and his wife hope to move into a new town house at the Belevidear Country Club by early summer.

Charles Somerby is now editor-publisher of the Gulf Breeze Sentinel following his retirement as a Commander in the Navy.

Charles Shackelford was to have semi-retired when he moved from Massachusetts to Damariscotta, Maine, but recently he has been elected a director of Eastern Trout Farms Corporation and has become Director of Marketing for the same firm. In addition to his new responsibilities, Charlie has recently founded the Shackelford Food Corporation specializing in nutrient seeds.

Edwin Murphy's son, John Richard, now lives very close to the Academy and is trying to recover the blinds from his house which used to belong to Ted Barry.

A front page story in the *Newburyport Daily News* proclaimed a Rowley man as responsible for saving the life

of a heart attack victim who collapsed beside his car. **Olie Olsen** witnessed the incident as he and his son were driving to a first aid class and, having had CPR training, Olie was able to revive Earnest Manzer, 68. For service to his fellow man, Olie has been nominated for the Vail Award established by the founder of A T & T given by Western Electric from which Olie is now semi-retired.

'40

Dana Babcock writes that he has "sort of semi-retired" to Essex, New York.

'41

Having left the advertising business and Scarsdale, New York, **Frank Kirkpatrick** is now the owner of a country store in Bromely, Vermont.

George Leach has started Leach Real Estate Services in Key West. George also has a license for 100-ton boats for anyone who is looking for a captain.

Since retirement, "I'm busier than ever," writes **S. G. Johndroe**. After 27 years as City Attorney for Fort Worth, Texas he is now "of Counsel" with the law firm of Cantey, Hanger, Gooch, Munn and Collins.

Following open heart surgery, **Lester Ackerman** has been making a good recovery and is still active in his public warehouse business.

Phil Garfield is still an engineer with Raytheon.

After 28 years with Peterson, Howell and Heather, **Wilbur Webster** encourages the class of '41 to increase its percentage of participation in the Annual Fund.

Clayton Currier is an athletic director in Plaistow, New Hampshire with children in college.

Feaster Newton told **Dave Goodhart** this fall that two of his three daughters were married this past year and his third is a sophomore at the University of North Carolina. Feaster is enjoying playing a lot of golf and continues to celebrate the lack of snow in North Carolina.

It is quite likely that Solzhenytsen would not have been the 1978 graduation speaker at Harvard had it not been for **Paul Morgan's** wife Anne, who has just completed her term as

the first woman president of the Harvard Alumni Association. Anne was responsible for suggesting Solzhenytsen as speaker.

William Noyes is working in the real estate department of New England Telephone. As a diversion, he helps his daughter raise sheep.

Anticipating his 40th Reunion from GDA, **Alexander Murchie** has volunteered to be chairman for the class anniversary effort in 1981. Alex has a daughter in Palm Springs and a son at Ripon College in Wisconsin.

Cushing Strout is a Professor of American Literature at Cornell and is a Trustee of Wells College.

'42

Niel Hansen is Group Vice-President of North America Reinsurance.

Robert Kelley is principal of an elementary school called The New East School in Torrington, CT.

'44

In his 24th year of work for American Airline, **Frank Skirball** continues "putting the ever-changing airline fares on the computer."

'45

David Barnard writes that he is self-employed, with 30 years in the real estate industry, and is currently the Chairman of the Worcester Industrial Development Financing Authority. He also has four daughters who have all graduated from college.

Warren Furth is still the Assistant Director-General for the World Health Organization in Geneva, Switzerland, a position which brings him into contact with health professionals and others from 150 nations. Last year took him to India, Nepal, and Central Russia. This year China is likely to be a stop.

Director of Automotive Operations in the Fiber Glass Division of PPG Industries is **Shepard Sikes**.

Brad Roberts, Vice Chairman of Needham, Harper and Steers Advertising, Inc. was named Man of the Year by the Western States Advertising Agencies Association in January. The award is presented annually to an individual who has significantly con-

tributed to advertising in the West, and has devoted the majority of his business career to advertising.

Ben Towne is a field consultant for the Family Service Association of America — a division of the United Way — and works with 61 agencies in New England and Eastern Canada.

'46

Sandy Draper is Deputy Director of American Geographical Society in New York City. His son, Scott, graduates this May from Drew University where he is the captain of the Garrison Volunteer Ambulance Squad.

Bob Reid is President of Bridge Options and also works for Bridge Data, a St. Louis Company which deals with stock and stock options. The Reids have two children, Katherine, 16 and Robert, 13.

Max Pam Blumenthal writes and produces the television show "Taxi," along with a cousin of **Ted Mixer**.

'47

Professor **Dana Mayo** delivered a lecture on Marine Ecology in Schumann Science Center on February 8. Professor Mayo, who recently retired his chairmanship of the Chemistry Department at Bowdoin, told the GDA chemistry students of his recent research on oil spills at the Bowdoin Marine Research Institute.

'49

Tom Davidson writes the *Archon* that he remarried last October and that his wife, Karen Peterson, is also his business partner. The Davidsons have a home in New York City where their company, Davidson & Peterson Associates, is headquartered.

Donald Wochomurka works in Hartford for the Whitney Chair Division of Dresser Industries and has four children ages 24, 22, 18, and 14.

'50

Last summer **Alan Flynn** and his family, including Alan, 11, and Sarah, 10, returned to Japan for the first time in nine years. "The dollar hit rock bottom and the cost of living was astounding relative to our previous experiences," writes Alan, "but our Japanese friends provided for us magnificently.

As of April 1, **Tim Greene** will be Vice President in charge of Correspondent Banking Activities for the New England Merchants Bank.

'51

Edward Stockwell's third book, *A Sociological Introduction to Third World Development* has gone to press and should be out by late 1979 or early '80.

Edgar Lawson works for the Army Corps of Engineers in New York City.

'52

Having returned from several years with a parish in England, **Frank Huntress** has returned to the United States and just recently acquired a new parish in Saratoga Springs, New York.

'55

A. C. Hubbard has been elected Director of the Counsel Division of T. Rowe Price Associates, a Baltimore-based investment research and counsel firm. He is responsible for overseeing more than 30 investment counselors who manage some 4 billion dollars in private institutional accounts.

Granville Allen has been racing catamarans for the past five years and, most recently, was the winner of the Lake Tahoe Trophy Regatta with his youngest son Michael crewing.

Orrin Collie has recently purchased the H. Marsh Insurance Agency of Duxbury and further reports that keeping up with three teen-age daughters is a great challenge.

Fred Young was recently appointed Treasurer of the Towle Silver Company. His son is in his second year at Michigan State.

John Coon is in the textile machine business covering the eastern seaboard out of Greer, S.C.

Jim Allen is with General Motors manufacturing industrial ball bearings. The Allens have two sons, a junior in high school and a fifth grader. Jim, Marilyn and the boys do a lot of skiing.

Bowen Tucker is an attorney on the staff of F.N.C. Corporation.

Phil Angell is an attorney in Randolph, Vermont and runs a "one man shop" with the largest law library in the county.

George Gardner works for Arthur D. Little in Cambridge in computer

consulting. Both of his children are in junior high school and his wife, Joan, is busy with her duties as a selectman in Acton.

Fred Scribner is practicing law in association with David Berman in Medford.

Ed Luneburg is in media placement for a major advertising agency in San Francisco.

'56

Richard King is Vice President of the Fixed Income Department in the Boston Office of Goldman Sachs and Co. Richard is married with three children and lives in Duxbury.

'58

Chick Carroll writes that he is living in Camden, Maine doing real estate development. He is currently rehabilitating two large commercial buildings on the National Historic Register and consulting a couple days a month in Washington. Connie and Chick have two children, Allison, 8 and John, 6, both of whom are avid skiers. The whole family is active in racing, and enjoys small town living after 11 years in Washington, D.C.

'59

The new president of Barber Steam Ship Lines in New York is **Bob Pouch** who is currently living in Irvington, New York with his wife, Ray, and their two children Bill and Cathy.

'60

Greg Meyer hopes to visit GDA with his family for his 20th Reunion in 1980.

Don Alexander was appointed a judge by Maine Governor James T. Longley in December, 1978. A deputy attorney general since March of 1976, Don handled the day-to-day affairs for Attorney General Joseph E. Brennan who is now the Governor of Maine. Alexander replaced the retiring at-large District Court Judge, Simon Spill, of Biddeford.

'62

Doug Coupe writes that he is now principal of Silver Lake Regional High School, which sends its football team to a one-week football camp at GDA

each summer. "Our guys are so tough even the mosquitoes don't bother them."

Tim McNally writes that he has bought a 65 acre tract of land atop a ridge affording a 30 mile view to the east and northeast in Pomfret, Connecticut. His wife, Reva Seybolt, assisted by one "carpenter" has been building a Shelter Institute type house. Tim relocated his law offices from Mansfield, Connecticut to Putnam and continues his political interest and involvement despite time constraints caused by weekend carpentry and home-building activities.

Having received his Ph.D. from Yale in Near Eastern Languages and Literatures, **Peter Machinist** writes that he is enjoying life and work teaching as an Assistant Professor of Biblical studies and Near Eastern History at the University of Arizona in Tucson.

Ken Pouch has been made an officer and director in the Connecticut General Insurance Company in Hartford. The Pouches have a son and two daughters.

'63

For his graduation thesis from Harvard in 1968, **Randy Langenbach** developed a senior honors thesis entitled *The Amoskeag Millyard: An Epic in Urban Design*. Just recently he and his wife, Tamara, have published a book that documents the physical and emotional aspects of mill life. *Amoskeag: Life and Work in an American Factory-City* presents an oral history of the people who lived and worked in the millyard and is illustrated with seventy of Langenbach's photographs.

'64

In January, **John Steele** was appointed County Planning Director for Wayne County in Lyons, New York. Last June he and his wife, Leigh, along with their children, Carrie 6 and Aaron, 3, moved into a new house that John designed and built for a 10 acre country site.

Phil Johnson is now a Systems Analyst Engineer with Computac Automated Business Services in West Lebanon, New Hampshire.

Mike Kotarski has been elected Assistant Vice President of the Vinnin Square office of Essex Bank.

David Pearsall has moved to California for eight months while he attends a couple of training schools before returning to the Virgin Islands to stay.

'65

Brock Callen is now the owner of Mount Kisco Seafood in White Plains, New York following a high pressure career in the textile business in New York. In an article printed in the *White Plains Reporter Dispatch*, Brock said, "I realized my priorities were screwy . . . my job had me traveling 85% of the time and the result was I never saw my wife and kids . . . life has a beginning and an end, and is not very long. What's the point of missing out on the better parts of it?"

David Chilton is currently working in the field of executive compensation in the Employee Relations Department of DuPont in Wilmington, Delaware.

'66

Roy Hope was the father of daughter number three on December 12. The Hopes currently reside in Indianapolis in a New England style house while Roy completes his 3rd year of medical school at Indiana University.

'67

Mac Barnes became the father of a son, Jeremy "Remy" Shepard, on September 11.

Ben Beach is getting married before he turns 30. Carol Mast will help make it possible, assisted by Dan Morgan who will usher at the Washington wedding. This past fall Ben won the first-ever Historic Gettysburg Marathon held in Gettysburg, Pennsylvania by covering the 26 mile 385-yard course in 2:35.21. Ben plans to run the Boston Marathon in April.

For further '67 news see page 15.

'68

Bob Stewart is a tax supervisor for Coopers & Lybrand and is attending the University of Connecticut Law School at night with graduation planned for May of 1980. The Stewarts are expecting their first child in July.

Harry Kangis has recently been named a Brand Manager by Proctor & Gamble and elected for a second term as President of the Cincinnati Chamber Orchestra.

Ross Raymond graduated from the Physician's Assistant program at Yale last spring and is now working with cancer patients at the University Hospital of U.N.C. in Chapel Hill, North Carolina.

Paul Garés lived in Yemen for 2 years with the French Military Service assigned to the French Embassy. He just finished a Masters in Geography at Syracuse and is now working on a Ph.D. from Rutgers. Paul is currently working at the Coastal & Environmental Center at Rutgers specializing in coastal problems such as erosion.

'69

Gary Martin writes that he is currently in his first year of Post-Graduate Medical Training and will begin the first year of Surgical Residency at Maryland General Hospital in Baltimore in July of '79.

Chris Barker is employed at the Harvard University computer center as a systems programmer and is enjoying it immensely.

Bill Strider is practicing yoga in Santa Cruz under the direction of Baba Hari Dass, Master of yoga from the Himalayas in Northern India. He sends his best to all.

Rick Robbins is a production line manager at the Ingersoll-Rand Corporation, a position he received after graduation from Florida State with a B.A. in Business Administration.

Dave Francis has been running his own sound systems company, Timber Audio, for five years now. His company provides the P.A. systems for rock concert groups across the country.

Steve Handy is on an exchange program for Cornell University at the University of Brussels studying international economics in French. "Hamburgers here are \$4.00."

Peter Myers is working in Boston for John Hancock Insurance in programming and systems analysis. He lives with his wife, Beth, in Hamilton.

At a recent phonathon in New York, **Josh Burns** '68 had a long chat with the father of **Fred Lyle** (Robert Lyle '40) and learned that Fred is in Los Angeles in the film industry following graduation from Eisenhauer College and U.S.C. Film School.

Ned Lattime is doing cancer research.

Class of '67 News

15

Miles Stands By His Story

Twelve years after the fact, Mike Miles stands by his story that the stakes were only matchsticks — not money — when Mr. Williams busted up a card game in Miles' room senior year.

"Hey, I'm not that kind of guy," insisted Miles, now a shoe magnate with Hanover Shoes in Hanover, Pa., the Potato Chip Capital of the World. "Ask Jeff Wood." Wood declined comment.

Still a gamesman, Miles bowls, golfs, and plays softball, and he sings barbershop at the American Legion. Most of the time, however, he works, and Miles maintains that he has had a mere four days' vacation over the past five years. A shoe show he was putting together prevented him from attending the tenth reunion.

Adolph Found In Far West

A nationwide manhunt came to an end February 27 when Keith Adolph turned up alive and well in Foster City, California, not far from the San Mateo Fairgrounds just south of San Francisco.

Adolph, a computer expert, dropped from sight in 1973, when he graduated from Harvard College and headed west in his car. The effort to find him began at a GDA reception in Washington, D.C., last May when Deep Shephard '66, Adolph's college roommate, told Ben Beach that all of the missing man's relatives lived in Canton, Ohio.

Beach located a Canton phone book and began calling the seven Adolphs listed. None knew of Keith until the sixth, Donald, confessed to being a cousin. He referred Beach to Kenneth Adolph, a Kent resident reputed to be Keith's father.

On February 27, Beach finally reached Keith's mother and got his Foster City number. He then ended the manhunt by calling Keith. "I thought I'd covered my tracks," Adolph remarked.

While underground for six years, Adolph did computer work in three states and married a South Carolinian who also does data processing.

888 Foster City Blvd., Foster City, Cal. 94404
(415) 574-1075

"Yup, the days of shooting off fire extinguishers in Ingham are gone," the one-time Bhudda mused while sharing an order of egg rolls with a reporter. "I'm not on the JV's any more."

A homeowner, Miles is reasonably happy

Boucher Uses GDA Training

The love of hard work that Dick Boucher developed on the pony soccer field and in Frost Library apparently has helped make him one of the leading builders of luxury homes in the Lehigh Valley today.

Boucher, who gave up his senior year at mixer-rich GDA to be closer to a home-

with life in the world's potato chip capital. "It's a little slow here," he acknowledged, "but it's an improvement over South Byfield and the mixers with Walnut Hill."

35 Sherman St., Hanover, Pa. 17331
(717) 632-1760

town sweetheart, builds homes which start at \$65,000 and lives in one of his own developments in a sleepy town named Cherryville. He also sits on the planning commission.

The building tycoon's engineering ability became clear as early as freshman year, when he teamed with Stark Beatty and Monk Lewis to build a three-seat bike. "But for sheer excitement," Boucher noted, "nothing topped that scoreless tie with Brooks."

Wife Connie, the hometown sweetheart, is a schoolteacher who names the streets in the developments. She and Boucher have a two-year-old daughter, Jendy, and expect a second child this spring.

Box 856, Cherryville, Pa. 18055

Four Men Still Among Missing

At least four members of the Class of '67 have disappeared — possibly forever. They are Larry Miller, Hugh Munro, John Easton, Ward Westhafer, and Wayne Noel. (The two day boys count as one-half each.)

Anyone with information on their whereabouts should contact Ben Beach, 317½ Constitution Ave., NE, Washington, D.C. 20002. The reward, if a tip leads to a discovery, is one sheet of well preserved Gov. Dummer stationery with the hairs.

The only alumni who took us up on our challenge to produce something as clever as the Class of 1967 did in the last Archon, was the Class of 1967. The offer still stands.

COME TO PAPA

"I just know someone's slipped that kid a basketball," expectant father Dan Morgan said the other day as he washed his car in preparation for the trip to the hospital.

The Morgans had expected to celebrate their first anniversary March 4 in the maternity ward. By that time Mayo was carrying over seven pounds of the Class of '97, but the car was still in the driveway.

"If Mayo gets any bigger, I'm going to have to rent a U-Haul," the bewildered Morgan remarked. "Thye're going to need a special door put in for him at Alumni Gym."

5 Berwick La., Worcester, Mass. 01602
(617) 753-0082

'70

Rich Welch is currently a Law Clerk for Raymond J. Pettine, Chief Judge, United States District Court of Rhode Island. Rich will join the Boston law firm of Choate, Hall & Stewart next year.

Wayne Mutchler is living in Boston and working for the Christian Science Church.

Jeff Brown is in his 3rd year of law school at Boston University.

Henry Eaton is studying at the School of Public Communication at Boston University with marriage plans set for this summer. His fiancée is Christine Murphy.

'71

Al Jackson has received his M.D. and is presently completing an Internship at the Los Angeles County-University of Southern California Medical Center. Next July, Alan plans to begin a residency in internal medicine at Queen's University in Kingston, Ontario.

On January 13, **Kent Haffenreffer** was married to Joleen Connolly from Portland. The Haffenreffers have bought some hill-top land just west of Freeport but will still be close to Portland and the ocean.

Mike Wellman and his wife, Dede, are living in Charlottesville, Virginia while Mike finishes at the University of Virginia Business School.

Justin Doyle left his accounting job with Price, Waterhouse in Boston and now works with the investment firm of Morgan Stanley in New York.

Jack Stanyon is working for a Spanish-speaking radio station in New York and **Mike Hoover** continues with the Israeli area of the International Division at Manufacturers Hanover Bank.

Ted Northrup tells *the Archon* that he became engaged to Mary-Pat Donaldson of Cazenovia, New York on November 22 and continues to work for the Cambridge Filter Corp. as Southeastern Sales Manager. Ted is living in the Syracuse area and will continue to following his spring wedding.

Scott Bloom and **Brad Young** have bought a house together in Kennebunk, Maine. Both Scott and Fu are doing carpentry work and enjoying life in the country.

Sandy and **Will Phippen** have just left for a year in Hawaii, where Willie will be doing work at the Pacific Regional Conservation Center in Arti-

fact Preservation/Conservation. He will work through the Bishop Museum in Honolulu.

Rick Barrett is currently the Food Service Director at Bentley College in Waltham working for SAGA Corporation. Rick is living on the ocean and commuting to work from Winthrop in the winter and Annisquam in the warmer weather. Rick looks forward to hearing from anyone in the Boston area from the class of '71.

'72

Katherine Shea Lenane was born to Susan and **Brian Lenane** on December 18. Brian continues to work for the accounting firm of Peat, Marwick, Mitchell in New York and has been active in GDA alumni affairs in the area.

Bob Benson is currently working at the Colorado Public Library Restaurant in Brookline, and **Mark Woodbury** is studying engineering at University of New Hampshire.

Eric Covner was promoted to First Lieutenant in the Infantry on October 29 and attached to the intelligence section of the 1st Infantry Division (Forward) in Goppingen, Germany.

Gus Selke moved to Seattle in May of '77 and became a sales representative for Mercedes-Benz and BMW for a year. He is now writing and coordinating advertising for *The Weekly*, Seattle's news magazine. He has entered the MBA night program at the University of Puget Sound this winter and spends a lot of spare time reading, painting and listening to main stream jazz.

Tunk Hosmer is now married to the former Maren Hooper and managing P.V. Vineyards in Ovid, New York. The Hosmers at last word were planning on spending the winter in Montana skiing "and searching for the deepest snow in the U.S.A."

Phil Zenner told **Bob Billewicz** at the fall phonathon that he has spent two satisfying years working with delinquents for the State of Florida.

Charlie Bouchard is living at home and going to graduate school at Boston University for an M.A. in Biology. His plans include applying to med school next year.

'73

Phil Smith is presently a second-year graduate student at the Thayer School of Engineering at Dartmouth

and proudly announces his engagement to Winnie Foss of Cape Elizabeth, Maine.

Chuck Holleman writes that he is finishing up his final year of the MBA program at the University of Chicago and is doing some theatre on the side while he looks for a job.

'74

After six months as a drug counselor in Jersey City, New Jersey, **Jim Pramberg** has returned to Newburyport and is working as a Child Care Counselor in Methuen. "Social work is rewarding in some ways, says Jim, I'm not going to be a millionaire *this* year."

Jim Leighton is working for Raytheon on the Patriot Missile Guidance system, while **Joe Kennally** does legal research in Washington State for a law firm before returning to law school.

Bill Rudow is assistant-teaching at Tufts as he pursues an M.A., and **Konrad Shoen** is on the Dean's List at Suffolk University where he is president of the photography club. Konrad recently returned from two years in Asia where he studied for a year in India and spent another year purchasing antique aircraft for restoration in the United States. Before enrolling at Suffolk, Konrad spent a year as a ship's engineer aboard a trawler.

Jeannie Bethel-Baer is presently working for the Massachusetts Department of Mental Health. She also writes that she attended Audrey Cesareo Grant's ('75) wedding earlier this year.

Mike Hyman is the Black Student Union president at Franklin & Marshall.

'75

Steve Dunfey has been appointed to be an Assistant House Minority Leader for the 1979-80 session of the New Hampshire House of Representatives. Elected in 1976, Steve was one of the youngest members of the New Hampshire Legislature at age 19. Now in his second term, he is a licensed real estate salesman for DFC Gallery of Homes Realty in Hampton.

Maria Papioanou just completed a semester's internship at Children's Hospital Medical Center in Boston. She will graduate from the University of New Hampshire in May and continue next year in a Master's program for clinical education.

Dan Clayman is applying to graduate school for lighting design for dance and theatre. He is currently living in Watertown working for Connecticut College in New London as a freelance lighting designer in the dance department.

Scott Draper studied this fall in New York with the Drew University United Nations Semester.

John Gossage has applied for a position with the Diplomatic Service of the Civil Service Department in England.

Richard Neyman held the leading role of Squinty in the George Bernard Shaw comic melodrama, "The Shewing Up of Blaco Posnet," produced in the fall.

Chris Richards is a senior at Hobart majoring in economics. He has been in charge of the Lecturer Artists Committee for two years and is responsible for getting well-known speakers to come to Hobart and entertain them while they're there. Chris is a member of the Theta Delta Chi Fraternity and has spent the last five summers as an orderly in the emergency room at Jordan Hospital in Plymouth.

'76

Perry Smith wrote this past January that he hopes to work with the Consumer Protection Bureau of the At-

torney General's Office and with the Conservation Sow Foundation of New England — a set of five lawyers who adjudicate all conservation/environmental issues in the entire New England area. Both of these positions are volunteer and Perry hopes to divide his time between these while stealing some time to get back to GDA more this spring.

'77

Tim Richards is currently a sophomore at Hobart College and a member of Theta Delta Chi, as is his brother Chris '75. Tim has played some varsity golf and is hoping to play lacrosse this year.

Perry Long is presently employed by Locke-Ober Cafe in Boston as a rounds cook with plans for attending the Culinary Institute of America in October of '79.

Alison McElroy writes that she spent time as a member of the road crew with Bruce Springsteen.

Trish McKee went to Outward Bound at Hurricane Island this summer and at last word was waitressing at an Inn in New London, New Hampshire.

Eric Laub spent the summer working as a door-to-door salesman for the Southwestern Company in Louisiana, Arkansas, Oklahoma and Texas.

Work is getting harder at Cornell, he concludes.

Andy Sterge is playing on the Varsity Tennis Team at Wake Forrest for the second year. He played in his first professional tournament last summer and plans to play the whole pro circuit this summer. Andy has made the Dean's List and has already taken a graduate course in math.

Hew Jones played Rugby at Bowdoin this past fall after switching from football, and **Hilary Laraba** played field hockey at Colby. She is majoring in English and hopes to study in the British Isles next year.

Joe Pietrafesa is helping coach the J.V. lacrosse team at Syracuse University.

Tich Richards is a sophomore at Hobart and is hoping to get a job in California this summer doing construction work. Tich has been trying to stay in shape by playing varsity golf and "team" lacrosse and hockey.

'78

Scott Anderson played in the Georgia Tech-Georgia junior varsity football game for the benefit of the Scottish Rite Hospital for Crippled Children. Scott played reserve full-back and ran on all the specialty teams for the Thanksgiving Day game, which his parents traveled to Atlanta to see.
